QMS

Quality Management System

IATF 16949 & PPAP Compliance Platform

LARCH

Complete Digital Quality Solution

- IATF 16949 Clause-Wise Compliance
- Full PPAP 18-Element Digital Workflow
- Supplier Quality & SPC Integration
- Real-Time Dashboards & Analytics

Automotive Grade | Cloud-Ready | Industry 4.0

Quality Management System (QMS)

LARCH

IATF 16949 aligned digital compliance across all quality dimensions

IATF 16949 Compliance

- Clause-wise mapping
- Quality policy & KPI tracking
- Risk-based thinking
- Stakeholder management

Document Control

- Centralized repository
- Version control & approvals
- Change history & audit trail
- Automated expiry alerts

NCR Management

- Internal & external logging
- Customer complaint tracking
- Supplier non-conformance
- Severity & impact analysis

CAPA Management

- 5-Why & Fishbone RCA
- Corrective & preventive tracking
- Effectiveness verification
- SLA monitoring & closure

Audit Management

- Annual audit planning
- IATF clause-based checklists
- Findings, scoring & follow-up
- Certification readiness

Risk Management

- Process risk identification
- FMEA integration (D & P)
- RPN tracking & mitigation
- Continuous risk review

Supplier Quality Management & Statistical Process Control

LARCH

Supplier Quality Management

- **Supplier Approval & Qualification**
  Digital onboarding and evaluation workflow
- **Supplier Scorecards**
  PPM, delivery & quality performance metrics
- **Incoming Inspection**
  Real-time results logging & trend tracking
- **Supplier NCR & CAPA**
  End-to-end corrective action management
- **Supplier Audit Scheduling**
  Automated reminders & audit history

Statistical Process Control (SPC)

- **Real-Time SPC Charts**
  X-bar, R, Cp, Cpk charts at your fingertips
- **Control Plan Integration**
  Seamless linkage to process control plans
- **Out-of-Control Alerts**
  Instant notifications for process deviations
- **Trend Analysis**
  Historical data & statistical trend visualization
- **Shop-Floor Visibility**
  Live quality data accessible on the floor

PPAP Module — Production Part Approval Process

LARCH

Levels 1–5 Support

Customer-specific PPAP requirements with digital approval workflow & re-submission control

PSW Auto-Generation

Digital Part Submission Warrant with e-signatures, customer formats & submission traceability

Engineering Change (ECN)

Impact analysis on PPAP, automatic re-trigger on changes, customer notification workflow

Traceability & Compliance — Part-to-process-to-document linkage | Lot, batch & serial number traceability | Full compliance evidence in one click

PPAP Submission Workflow

Step 1 → 2 → 3 → 4 → 5

PPAP — Complete 18-Element Digital Management

All 18 PPAP elements managed digitally — from Design Records to Bulk Material Requirements

1	Design Records
2	Engineering Change Documents
3	Customer Engineering Approval
4	DFMEA / PFMEA
5	Process Flow Diagram
6	Control Plan
7	Measurement System Analysis (MSA)
8	Dimensional Results
9	Material & Performance Test Results
10	Initial Process Studies (Cp/Cpk)
11	Qualified Laboratory Documentation
12	Appearance Approval Report (AAR)
13	Sample Production Parts
14	Master Sample
15	Checking Aids
16	Customer-Specific Requirements
17	Part Submission Warrant (PSW)
18	Bulk Material Requirements

Key Business Benefits

LARCH

Faster PPAP Approval Cycles

Digitised workflows eliminate paperwork delays — submit and get approvals in record time.

Zero Audit Panic

Always IATF-ready. Every clause, document, and evidence available in one click.

Reduced Customer Complaints

Systematic NCR and CAPA management drives consistent quality and customer satisfaction.

Improved Supplier Performance

Real-time scorecards, NCR tracking and audit scheduling elevate supplier accountability.

Complete Digital Traceability

Every part, process and document linked — full traceability from raw material to shipment.

Eliminate Manual Paperwork

Replace Excel sheets and paper forms with a single, integrated digital quality platform.

Ready to Transform Your Quality Management?

One platform. Every quality process.
Fully IATF 16949 compliant.

LARCH

What You Get

- IATF 16949 full clause compliance mapping
- 18-element PPAP digital workflow
- Real-time SPC & shop-floor visibility
- Supplier quality scorecard & audit tool
- Auto-generated PSW with e-signatures
- Dashboards for NCR, CAPA, PPM & COPQ
- ERP / MES / PLM / Industry 4.0 integration
